

## Army INSCOM Global Intelligence Support Services Contract Number: W911W4-14-D-0018

### Total Solutions Contract Vehicle for Army INSCOM, Army, and Intelligence Community

Integral is a prime contractor under Army Intelligence and Security Command (INSCOM) Global Intelligence Support Services – Restricted (GISS-R), an indefinite delivery, indefinite quantity small business contract intended to establish an enterprise approach to providing competitive, responsive, and comprehensive support services for current and future global Army intelligence missions.

### Streamline Your Procurement of Complex Solutions, Professional Services, and Products

GISS-R is the most comprehensive acquisition vehicle available for intelligence support services to INSCOM, the Army, and Intelligence Community mission partners worldwide, offering complete state-of-the-industry solutions, services, and products. GISS-R task orders valued at less than \$4 million annually (\$12 million over three years) are set aside for small business, and small business task orders have no value limit. Task orders may be solicited for all permissible contract types per FAR Subpart 16.

### A Full Range of Support Services

The support services fall within four major areas:

1. Intelligence and security through collection, analysis, and production of intelligence information
2. Information operations
3. Mission support services for management of facilities (including sensitive compartmented information facilities [SCIF]) and logistics, training, and intelligence systems
4. Sustainment services, including business functions for program administration, resource management, requirements analysis, and force planning

### Integral – A Trusted Partner with Relevant Experience

Our team of specialized companies provides identity intelligence; all-source intelligence collection and analysis, including HUMINT, OSINT, SIGINT, MASINT, and GEOINT; counterintelligence; cybersecurity and cyber intelligence; information assurance; cloud computing; big data solutions; data analytics; comprehensive training; language translation; document and media exploitation; high-performance storage solutions; complete SCIF design, construction, and UL 2050 intrusion detection systems and access control systems; engineering and logistics support, research, development, test, and evaluation; sensor solutions and testing; engineering and operations; IT and network operations; application development; and business operations worldwide.

### About Integral

Integral is a woman-owned business headquartered in Rockville, MD, with offices in Charlottesville, VA, and Aberdeen, MD. The company provides customized information technology and identity intelligence solutions focused on making the world safer and more secure by defending against terrorism and protecting against cyber-attacks. Specifically, Integral has more than 12 years of experience in providing real-time solutions and support in identity intelligence, multimodal biometrics, information assurance and cybersecurity, application development, IT service management, and mission support services. The company's institutionalized processes enable the application of proven experience and lessons learned to deliver projects on time and budget and with the highest quality, while exceeding clients' expectations. Integral holds ISO 9001, ISO 20000, and ISO 27001 certifications; is appraised at CMMI-DEV/3 and CMMI-SVC/3; and has a cost accounting system approved by the Defense Contract Audit Agency.
